### Message from the Guest Editors

Dear Colleagues,

This Special Issue is about exploring, analysing and advancing knowledge at the intersection of artificial intelligence (AI) and accounting, specifically focusing on financial reporting quality.

The scope of this Special Issue encompasses a broad range of topics within the nexus of artificial intelligence and accounting, with a specific emphasis on financial reporting quality. Submissions are encouraged to address, but are not limited to, the following themes: 1) Algorithmic Processing in Accounting; 2) Machine Learning in Financial Reporting; 3) Ethical Considerations in AI-Driven Accounting; 4) Regulatory Challenges and Opportunities; 5) Case Studies and Empirical Research; 6) Future Directions and Emerging Technologies.

By addressing these and other related topics, the Special Issue aims to contribute to the ongoing scholarly discourse on the transformative role of artificial intelligence in shaping the landscape of accounting and financial reporting.
